Memorandum • UNITED STATES GOVERNMENT

Colonel Edward W. Gamble, Jr., OSS
Executive and Liquidating Officer.
Major William G. Tharp

DATE: 14 Sept. 1945

SUBJECT: Status of Liquidation -- Field Experimental Unit.

Captain G. B. Oswald, Air Corps, Acting Chief, Field Experimental Unit, advised me that Colonel Eifler, Commanding Officer of the FEU, will return to Washington from the West Coast on Monday next, 17 September 1945. Major Frazee, their Executive Officer, is also out of the city and will return on Monday.

Oswald stated that the present strength of FEU is as follows:

Army:

Officers..... 8
Enlisted Men..... 10

Navy:

Officers..... 2
Enlisted Men..... 0

Civilians:

Vouchered..... 3
Unvouchered..... 0

Total Strength 23

In addition to the above personnel they presently have six Japanese prisoners of war who are being held on the West Coast. The PW's are Koreans who were picked up from Japanese labor battalions. They will have to be returned to the War Department when liquidation is effected.

Oswald stated that it was his understanding that Colonel Eifler intended to close out the entire FEU at the earliest possible moment. They have already had verbal instructions to this effect from either Mr. Cheston or the Director (Oswald was not certain).

I explained to Oswald that the Executive and Liquidating Officer wanted a memorandum covering the Unit's plans for liquidation, including a specific date as to when it could be accomplished as well as justification for the retention of any personnel over a prolonged period. He assured me that Colonel Eifler would give this his earliest attention upon return and it would probably be in Monday or Tuesday.
